ABOUT MYSELF

For over 9 years, I have managed complex international projects, guiding teams through every stage of fiber optic infrastructure deployment. My expertise lies at the intersection of **technical execution** (AutoCAD, Revit and QGis), **strategic logistics**, and **effective team leadership**. I have a proven track record of adapting quickly to new challenges and delivering results under pressure. I am immediately available for a new opportunity and fully prepared to relocate.

WORK EXPERIENCE

Modi SL

City: Barcelona | **Country:** Spain

[28/02/2019 - 30/09/2024]

Program manager

- Directed the end-to-end implementation of a **€4.25M** telecommunications program, overseeing the deployment of fibre optic and radio networks from initial planning to final delivery.
- Led a cross-functional team spanning three departments (e.g., Engineering, Field Operations, and Logistics), managing all personnel, material resources, and work crews to ensure project alignment.
- Developed and controlled annual budgets and multi-year project forecasts, implementing strategic cost-control measures that **reduced overall company operational costs by 13%**.
- Spearheaded a critical infrastructure project for the Ministry for Digital Transformatio , successfully managing the deployment to **90% completion** ahead of schedule and securing the client relationship.

Civil drafter

- Design and construction of telecommunications networks.
- Proficiency in using AutoCAD, Keycom and QGIS software throughout the design process.

Ecoflat

City: Barcelona | **Country:** Spain

[05/2017 - 09/2018]

Architectural drafting expert

- Developed new and refurbishment projects, including the preparation of technical and executive reports.
- Maintained a database of 20+ building energy efficiency standards; identified and resolved compliance gaps in habitability certificates which resulted in zero regulatory penalties for clients, and increased customer satisfaction.
- Drove project efficiency and accuracy by expertly applying a full suite of design tools, including AutoCAD, Revit, Edificius, SkechUp Pro and Cype, from initial site analysis to final construction documents.
